

Ready**PI**

Bangladesh's First AI API Marketplace

Unifying 50+ AI Models Behind One API

OpenAI · Anthropic · Google · xAI · DeepSeek · Meta — One endpoint. Local payments. BDT pricing.

50+ Models

BDT Payments

First in BD

Bangladeshi Developers Are Locked Out of AI

No Local Payment

No USD cards. Can't pay Anthropic, OpenAI, Google directly.

Multiple API Keys

Each provider needs separate account, billing, and integration.

USD Pricing Only

Prices in USD make budgeting unpredictable in BDT.

No Unified Access

Switching models means rewriting code and managing 10+ accounts.

THE SOLUTION

ReadyPI — One API, Every Model, Local Payments

- ✓ OpenAI-compatible endpoint — change just the model name
- ✓ bKash · Nagad · USDT · Crypto payments in BDT
- ✓ Token-based credits, no expiry, no hidden fees
- ✓ Real-time usage monitoring and API key management

WHY NOW

Perfect Storm of Opportunity

AI Adoption Explosion

BD developer community adopting AI tools 40% faster YoY. No local solution exists.

Payment Gap = Moat

bKash/Nagad integration is our strongest competitive advantage. No one has done this for AI APIs.

Vertex AI Unlocked

Google Vertex gives us 50+ models via one GCP account. Zero upfront model costs.

OpenRouter Proof

OpenRouter does \$20M+ revenue with same model. We own Bangladesh + South Asia first.

Product Ready

Full stack built: Next.js frontend, Node.js API gateway, Firebase + PostgreSQL, payment integration.

First Mover Window

12-18 month window before global players enter Bangladesh market. Now or never.
